

Where are my clothes made?

1 Look at the label inside your clothes. Which country is the item of clothing made in?

2 Can you find the country on the map? Once you have found it, colour it in.

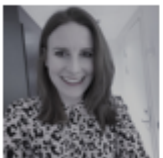

3 How far have your clothes travelled? Draw a line from the country your clothing was made to where you live.

- How much of the world have you coloured?
- Are you wearing clothes that have been made in different countries?

Clothes are made all over the world and have often travelled a long way before you wear them! Unfortunately this is not very good for the environment because they have travelled via plane or ship and the fuel used can cause global warming.
